

MODEL DSI-A1HR

Accordion Fire Curtain

The DSI Accordion Fire Curtain Model DSI-A1HR creates a one-hour opening protective fire barrier for a variety of applications without the need for columns or corner posts. Applications include atriums, stairwells, escalators, and other custom applications.

The curtain assembly comprises fire-rated fiberglass fabric uniquely folded into a compact head box that is typically installed above the ceiling with a finished bottom tray. This makes the system virtually invisible until activated.

The DSI-A1HR Accordion Fire Curtain is completely Gravity Fail Safe, resets automatically, and incorporates the latest in electronic technology. As a result, DSI-A1HR Accordion Curtain is one of the most advanced, yet cost-effective systems on the market.

Compliant with...

Code	Description
UL 10D	Fire protective Smoke Curtains – 1 hour
