

Won-Door FireGuard™

THE TOP-SELLING ACCORDION FIRE DOOR ON THE MARKET

Won-Door's FireGuard™ line of fire and security products continues to shape the accordion door industry. Each generation and every improvement enhances the built environment and enriches pedestrian access. All the while, its concealment provides design professionals the ability to fashion amazing architecture and the flexibility to do so within the constraints of building regulations.

DUAL-LAYER CONSTRUCTION

- Two robust, independent steel walls
- Dead-air space between walls combats the transfer of heat
- Available in virtually unlimited widths and >30' heights
- Available in single parting, bi-parting and curved configurations
- Available with both narrow and *industry-only flat leadposts*

EGRESS

- Compliant in a means of egress with all model building codes
- Exiting devices can be positioned anywhere along the opening; no man-doors necessary
- High-speed operation can accommodate large egress width requirements
- Simple and easily recognized operation complies with the ADA

FIRE + SECURITY PROTECTION

- Robust security features provide lockdown/lockout within 7 seconds
- Advanced electronic security allows for remote monitoring and control
- Motor operator resistant against 600 lbs. of forced entry
- Anti-sway brackets prevent under-door intrusion
