

Bond Events ARC US Conference

In today's virtual world of communications, are in person meetings still relevant?

Top 100 Architect firms and quality manufactures, continue to opt for face-to-face meetings because they can facilitate more effective communication, help build strong relationships and increase engagement.

Door Systems, welcomes in the new year excited to see our clients and meet their design needs.

When in-person meetings are not possible we still believe face to face communication is best using our Lifesize HD Video Call, Meetings Presentation Platform.

DSI 600 Elevator Smoke Containment System

A cost effective and architecturally pleasing solution to elevator shaft smoke protection. A proven system that meets all code requirements.

Bond Events ARC US Conference

Door Systems was happy to be back to in-person events this past year with ARC US Conference. This prestigious Bond Event brings together America's Top 100 Principal Architects and Vendors in one place for 4 days and 3 nights.

The experience centers around a series of one-to-one business meetings between architects and vendors, that each have selected ahead of time, this ensures high quality interactions making the best use of the attendee's time away from the office.

"For manufactures, it's the best way to get our products into the right hands at the nation's leading Architectural firms, it becomes an opportunity to accept challenges from the designers and help them achieve the design intent of the project; in ways that perhaps where not possible before."

- Sal Perez, Director @ Door Systems

Bond Events ARC US Conference

For architects and specifiers, the value lies in re-connecting with peers and discovering the best solutions to their design challenges from the experts they have come to trust with their Fire Doors and Smoke Curtains.

"It is a rare thing as a business owner I have the opportunity to interact with colleagues and product representatives in a relaxed and collaborative setting. I always enjoy this chance to learn and interact with industry partners, both new and familiar faces." -MG

Syntégra Integrated Door System

The Syntégra™ Door System is guaranteed to perform flawlessly through millions of cycles. Fire ratings for up to 8'-6" x 10'-0" openings.

Bond Events ARC US Conference

Door Systems presentation of the integrated door system and smoke & fire curtains made a lasting impression on all participants.

Architects made it clear that the unique features and benefits of the Door Systems product lines would fit well into their next projects.

Door Systems is the only company to provide code compliant integrated fire doors and fire protective smoke curtains that offer superior aesthetics, high performance and upfront cost savings while bringing long term value to the customer.
