

MOXY HOTEL

Project Highlight: Moxy Hotel San Diego

The Moxy is a 7-story, 126-room hotel located in the heart of downtown. A boutique-hotel for the budget-savvy traveler that's fresh and innovative with a stylish design. This project was another great collaboration between [Door Systems](#) and [Swinerton Builders](#).

Design By [Delawie Architects](#) for San Diego's Gaslamp Quarter, a famous Little Italy neighborhood. As the architect on record, they were responsible for the shell, interior architecture, lobby, restaurant, and back of the house. The interior design was by [Ankrom Moisan Architects](#) & [The Society](#).

DSI 600 Elevator Smoke Curtains

MOXY HOTEL

DSI 600 Elevator Smoke Containment Systems® were the perfect fit for these corridors that suffered from limited head room clearance. With one of the smallest headbox dimensions in the fire-rated elevator smoke curtain industry, it allowed room for the other elements hidden in the ceiling.

MOXY HOTEL

DSI 600 Elevator Smoke Curtains

WHY ELEVATOR SMOKE CURTAINS ARE THE BETTER CHOICE

Elevator smoke curtains create a smoke barrier system for buildings that comply with smoke and fire codes. Installing an **elevator smoke containment system** for smoke and prevention can be done easily, eliminating the need for an enclosed elevator lobby. This design returns valuable space for the architect to work with and can be completely hidden.

The DSI-600 Elevator Smoke and Fire Curtain advantages:

- A proven system with over 30 years of manufacturing experience
- Extremely compact with as little as 7 ½” of headroom required
- Fail safe design with automatic reset after a fire alarm
- Battery backup system standard
- Runs on a 24-volt system for lower electrical installation cost
- Lightweight design requires no heavy structural support
- 60-minute fire rating standard with option for 180-minute rating
- Multiple egress options
- Vision lite option
- Unlimited size options available
- Multiple mounting design options
- Complies with all relevant local and national code
